DETAILED ACTION

This office action is a response to the amendment filed on 2/27/2006.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as coupling position of a first magnetic layer portion and a second magnetic layer portion is closer to a record-medium-facing-surface than a front edge of an insulating layer, Zero Throat Height, and is located between a rear edge of the transducer and the front edge of the insulating layer. Applicant Admitted Prior Art (APA hereinafter) teaches a first magnetic layer portion and a second magnetic layer portion, which the coupling position is same location at a front edge of an insulating layer, Zero Throat Height. Therefore, it would not be obvious to modify APA by modifying the coupling position in between a rear edge of the transducer and the front edge of the insulating layer, since doing so would destroy the structure of magnetic head of APA.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 2-10 and 16-19 are allowed.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D. Kim whose telephone number is 571-272-4565.
